No Break Guarantee

Neta's garden watering products has been developed perfectly using the highest grade material suitable for **South African** gardeners. As a commitment of quality, Neta has introduced the **Neta No Break Guarantee**. This guarantee is our pledge that if our products do not perform to expectations within the guarantee period stated on the packaging, Neta will replace or refund the product.

Neta's No Break Guarantees are clearly identified on each product pack and range anywhere from 2 through to 10 years - depending on the individual product:

- Sprinklers are covered by a 2 year guarantee.
- Retractable hose reels are covered by a 3 year guarantee.
- Plastic UV stabilised fittings are covered by a 5 year guarantee.
- Plastic & metal guns are covered by a 5 year guarantee.
- Neta's garden hose range guarantees varies between 6 to 10 years.

To view the Neta range, visit **www.netagarden.com**.

Plastic Hose End Fittings

Neta's range of plastic hose end fittings is proudly **designed** to high quality standards. The fittings are manufactured from **UV Stabilised** plastic which make them ideal for the harsh weather conditions. As an assurance of quality, all fittings are backed by a **Neta No Break 5 Year Guarantee**.

The fittings have been designed to be robust and functional. The one-piece hose **connection grip** ensures the assembly is **water tight**. The range offers a complete watering solution: **from tap to hose end** and includes fittings to suit different tap sizes and hose diameters.

Tap Adaptor
Connect to a 1" or 3/4" tap.

Hose Connector
Connect 12mm hose to a tap.
Also available as a 12/18mm.

Hose Joiner
Join two 12mm hoses or repair a 12mm split hose.

Hose Coupler
Join two 12mm hoses to extend length.
Also available as a 3-end coupler.

Water Stop
Change watering accessories quickly without getting wet.
Also available as a 12/18mm.

Adjustable Spray Nozzle

Garden Hose

An Iconic Hose. Since the 1940's Neta has been synonymous with **high quality garden products**. Neta hoses are engineered, manufactured and tested for improved **softness, flexibility** and **kink resistance**. All hoses are **ultra lightweight**, making them easy to use. Neta hoses are suited to 12mm click-on fittings and are available in 12mm & 18mm.

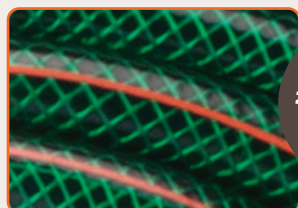

What makes a Neta hose stronger and more durable?

This starts right at the point of manufacture with the use of high quality raw materials. Its basic structure, which comprises an inner tube, a woven casing and an outer tube, also determines its quality. The thicker the tube, the stronger the hose will be and the more it will resist kinking. Strong polyester yarn, neatly and evenly braided, reinforces your Neta hose, allowing it to withstand high water pressure. The outer layer has high UV resistance to withstand the harsh weather conditions.

Hose Hangers, Reels & Trolleys

Hose hangers, reels & trolleys are great for keeping hoses neat & make them **safer & easier to use**. Neta has a hose storage device to **suit every budget**, from simple hose hangers to heavy-duty reels and a trolley for transporting heavy hoses around large gardens. Careful storage reduces the risk of kinking and knotting and will keep garden hoses **performing well** for many more years.

Hose Hangers

Hose hangers are the most basic storage system. They require a bit more effort than a reel, but are an excellent option for the budget-conscious home owner. Neta offers a range of hose hangers from stainless steel to UV stabilised plastic.

Stainless steel hose hanger can be used to store a variety of garden products. Neta also has a range of plastic hose hangers that incorporate storage for sprinklers and guns.

Hose Reels and Trolleys

Hose reels and trolleys are the ultimate storage device. They are easy to use and keep the hose twist-free which prevents kinking. Neta's 12mm hose reels are made from light-weight, corrosion-free and UV stabilised plastics.

Hose trolleys allow for the movement of hoses anywhere in the garden and allow for storage of hose when not in use.

Hose Reel

- Stores up to 30m of 1/2" hose.
- Made from UV Stabilized materials for long life.
- Foldable handle for easy storage.
- Light-weight construction for easy transportation.
- Height adjustable handle for convenient use.
- Connects to 1/2" click-on connectors.

Hose Trolley

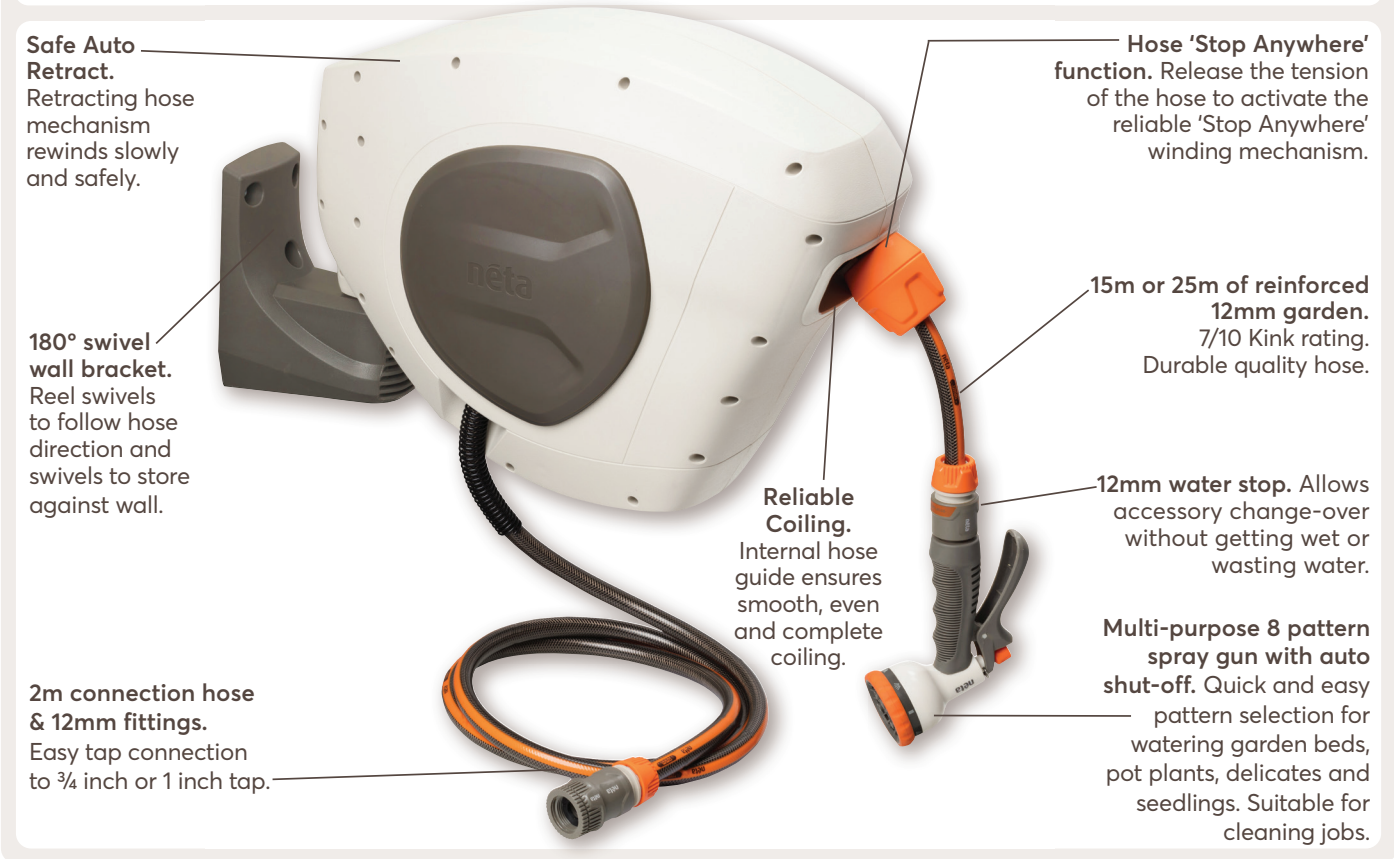

- Stores up to 30m of 1/2" hose.
- Height adjustable handle for convenient use.
- Made from UV Stabilized materials for long life.
- Foldable for easy storage and transportation.
- Locking pillar to secure a solid stand.
- Connects to 1/2" click-on connectors.

25m Retractable Hose Reels

Neta's retractable hose reel range is manufactured to high quality standards. The retraction mechanism is **durable** and the **reliable rewind** speed is **slow and safe**. Pull the hose out to the length needed and release the tension of the hose to activate the reliable '**Stop Anywhere**' winding mechanism. When the hose rewinds it layers **smoothly and evenly**. The 25m retractable hose reel is suited for most garden sizes and are equipped with an integrated high quality garden hose. An **8 pattern gun** and 12mm tap and hose **fittings** are included. Made from UV stabilised plastic to suit harsh weather conditions.

Neta No Break Guarantee. The hose reels are covered by a 3 year warranty.

Sprinklers

Neta's complete range of sprinklers

Neta's sprinklers are suitable for small, medium and large garden & lawn areas. They are manufactured to high quality standards using UV stabilised plastic and durable solid metal. The Neta sprinkler range has a choice of spray patterns with even water distribution to prevent puddles or dry zones.

Circular sprinklers

Circular sprinklers are ideal for smaller areas up to **150m²**. Made from UV stabilised plastic or durable metal.

Oscillating sprinklers

Oscillating sprinklers suit medium sized rectangular areas up to **360m²** and have adjustable spray patterns.

Impulse sprinklers

The impulse range suits large areas up to **530m²**. Available in UV stabilised plastic or durable metal. Connect sprinklers together for a larger watering area.

Neta No Break Guarantee.

All sprinklers in the range are covered by a 2 year warranty.

Multi Pattern Sprinkler

Features & Benefits:

- 8-pattern selections to suit any watering requirements.
- Select patterns by rotation of sprinkler insert.
- Connects to 12mm click-on fittings.
- 95m² Area coverage

Manual & Electronic Tap Timers

Neta's tap timers range is designed to **save time & water**. Set a time to deliver the correct amount of water at the best time of day to avoid over watering or watering outside allocated times. Automating watering saves customers time from hand watering. Made from **UV stabilised** materials.

Neta's tap timers are designed to meet consumer needs.

- User-friendly with large programming interface
- Flexible: use for one and two water zones
- Automatic operation of mobile sprinklers, irrigation & misting systems

Manual Tap Timers

- Runtime up to two hours
- Large rubber non-slip rotary programming dial
- Bypass function for manual watering

Electronic Tap Timers

- Large LCD display & non-slip rubber button
- 11 predefined programs for flexible programming
- Bypass function for manual watering
- Rain Delay function
- Battery indicator

In the event of predicted rainfall, the Rain Delay function can be set to delay programmed watering up to 7 days.

Cutting Tools

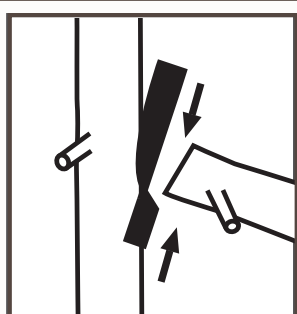

Secateurs

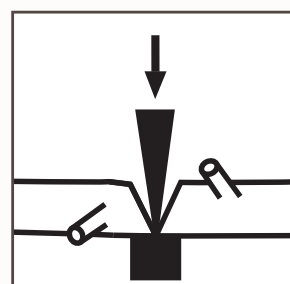

Neta's cutting range is manufactured to high quality standards, using hard-wearing and durable materials. Designed for the practical gardener, with comfort, convenience, and durability in mind, Neta's cutting range takes the trouble out of garden maintenance and pruning by ensuring optimal results with less effort.

Neta Secateurs feature **precision-ground blades** for clean and precise cuts, **non-stick coatings** that are easy to clean, and **ergonomically shaped handles** that reduce fatigue to hands during prolonged pruning sessions. **Lightweight** aluminium handles are coated in a **soft grip** material for added comfort and control, and an **adjustable grip size** is available on selected models.

Neta No Break Guarantee. The Neta cutting range is covered by a 10 year warranty.

Bypass Secateurs - Cutting Principle Bypass secateurs make a nice clean cut using 2 x curved blades that bypass each other in the same manner as a pair of scissors. Branches and twigs are cut very close to the trunk, which prevents cones that hinder the flow of sap. Suited to cutting fresh wood.

Anvil Secateurs - Cutting Principle Anvil secateurs have a single cutting blade (upper) which cuts down on the flat anvil (lower), much like a knife on a cutting board. The wide anvil distributes pressure and supports the branch in order to avoid damage to, or crushing of, the bark. Suited to cutting dry wood.

Reach high into the canopy whilst standing safely and firmly on the ground. No need for unstable ladders.

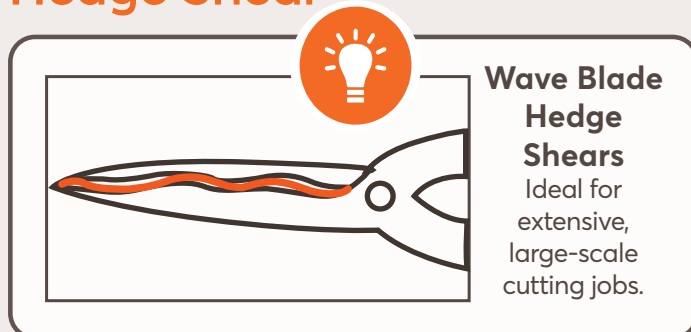

SIZE	ARTICLE NUMBER	PACK QTY	BARCODE
66-79mm length	CT/TELBLOPPER	8	 9314212086778

FEATURES AND BENEFITS:

- **Precision-ground blades** for clean and precise cuts.
- **Durable.** Blades are made from hard-wearing carbon-steel for added strength.
- **Easy to clean** non-stick coated upper blade.
- **Gear mechanism.** Provides increased cutting power, using less force.
- **Greater reach.** The telescopic-handles extend for extra reach.
- **Lightweight** aluminium handles are coated in a **soft grip** material for added comfort and control.
- Tool length: **66 - 79 cm.**
- Cutting capacity: **40mm.** Suited to cutting fresh wood.

Telescopic Hedge Shear

Wave Blade Hedge Shears

Ideal for extensive, large-scale cutting jobs.

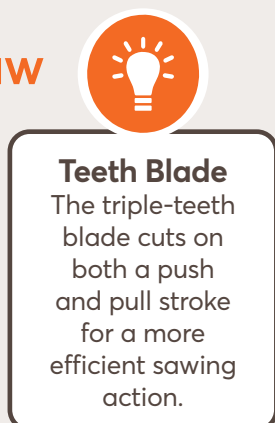

SIZE	ARTICLE NUMBER	PACK QTY	BARCODE
20cm blade length	CT/WAVYESHEAR	8	 9314212086761

FEATURES AND BENEFITS:

- **Precision-ground blades** for clean and precise cuts.
- **Durable.** Blades are made from hard-wearing carbon-steel for added strength.
- **Easy to clean** non-stick coated upper blade.
- **Wave-shaped blades** ensure a good grip on the foliage and do not slip away in the cutting action.
- **Adjustable blade tension.** Twist the orange star-bolt to adjust as needed.
- The **integrated branch cutter** is suited to cutting thicker foliage and small branches.
- **Greater reach.** The telescopic-handles extend for extra reach.
- **Lightweight** aluminium handles are coated in a **soft grip** material for added comfort and control.
- Blade length: **20cm.**
- Tool length: **72 - 98cm.**

Folding Hand Saw

Teeth Blade

The triple-teeth blade cuts on both a push and pull stroke for a more efficient sawing action.

SIZE	ARTICLE NUMBER	PACK QTY	BARCODE
240mm	CT/FOLDHANDSW	32	 9314212086785

FEATURES AND BENEFITS:

- **Durable.** The saw blade is made from hard-wearing carbon-steel for added strength.
- The blade is coated with an **anti-rust treatment.**
- Extend the blade and engage the **safety lock** to secure for sawing. Fold the blade back into the handle and engage the **safety lock** for safe storage.
- The **ergonomic design** aids optimal sawing performance with little force.
- **Soft-grip handle** for added comfort and control.
- Blade length: **240mm.**
